

## RAILWAY MISCELLANEOUS

### ABT4180 Wheel Backs Gauge

### ABT4189 Wheel Backs Gauge (Axle Press Version)

#### Technical Data

Gauge may be locked for 'go-no-go' reference

Measures wheel back-to-back dimension - 1350mm to 1370mm

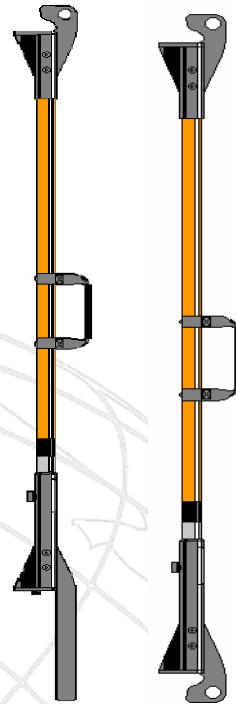

Thread profile allows post-turning evaluation of thread shape

Extended locating probe for use during wheel to axle pressing (P only)

Lightweight construction using GRP and Nylon 6

Factory calibrated for guaranteed accuracy

Complete with carrying handle

### ABT4460 Web Calliper Gauge

#### Technical Data

Measures thickness 5mm to 100mm

Use to measure web bulge

Use to measure rail side wear

Stainless steel construction

(Minimum order quantity:5)

### ABT4627 digital Bubble Box

#### Technical Data

Offers a direct reading of Super-Elevation -  $\pm 160\text{mm}$

Self zeroing; no calibration required

Easily and quickly swaps between a variety of tools

Water-proof to IP65

Auto back-lit display for night or tunnel work

### ABT4490 Digital Rail Thermometer

#### Technical Data

Measures temperature in range  $-50^{\circ}\text{C}$  to  $+70^{\circ}\text{C}$

Measures ambient or rail temperature (switch selectable)

Magnetic, flexible and robust rubber rail sensor

3m lead allows operator to hold display away from rail

Displays  $^{\circ}\text{C}$  or  $^{\circ}\text{F}$  including a back-light on display to read in the dark
