

The **ABT4071 3rd Rail Gauge (folding)** is a lightweight tool used to measure the conductor rail vertical and lateral position. The gauge can also be folded into two parts for easier storage and transportation in the shoulder bag provided. Constructed from hard wearing GRP, the gauge is electrically non-conductive making it suitable for use in areas of 3rd and 4th rail electrification.

### Technical Specification

Size	- 1698mm x 263mm x 128mm (Unfolded)
Measures +ve conductor rail vertical position	- 0 to 140mm (Lockable from 4ft)
Measures conductor rail lateral position -40mm to 90mm	- -40mm to 90mm from nominal (Lockable from 4ft)
